- Have you contacted your local zoning department? Your local zoning may have rules that prevent a lot combination.
- Is the property accessible to sanitary sewers? If yes, no further action needed by this Department, proceed to Planning Commission.
- Is the property residential? If not, no further action needed by this Department, proceed to Planning Commission.

The following information is needed for site evaluation:

- Stake/mark corners of the proposed lot (property lines)
- Submit scaled drawing that includes:
 - Narrative
 - Acreage of proposed lot(s)
 - Proposed lot lines with detail on site conditions including drainage features, as well as, location of easements, utilities, current septic system, all structures, wells, foundations, roads and/or water bodies
- Submit Soil Report – **NOT NECESSARY IF THE PROPOSED LOT WILL BE LARGER THAN 5.0 ACRES.**

*** All vacant lots will be sited for a three (3) bedroom home unless otherwise noted. This will be a lot restriction.
